RADI ISMAIL

FULL - STACK DEVELOPER

Mobile: +92 314 9667036 | Email: radird3@gmail.com | Location: Islamabad, Pakistan
LinkedIn Github

SUMMARY

Skilled Full Stack Web Engineer with a strong background in software engineering, proficient in **JavaScript and Java**. Experienced in popular frameworks such as **React.js** and with hands-on experience in working with **REST APIs**. Proficient in modern UI libraries such as **Tailwind CSS**, and **Bootstrap**. Experienced in developing responsive, dynamic, scalable, and production-ready web applications, with a solid understanding of databases like **MySQL** for efficient data management and storage.

TECHNICAL SKILLS

Programming Languages : Java, JavaScript
Frameworks : ReactJS, Express
Libraries : Redux, Tailwind CSS, Bootstrap
Databases : MySQL, MongoDB
Dev Tools & Platforms : Git, Github

Other Technologies & Tools

: Zustand
: Postman
: Figma
: React Query

WORK EXPERIENCE

Express/React (Junior Full Stack Developer), Sterling Tech. **October 2024 - Present**

- Acquired core programming skills, including **JavaScript, Node.js, MySQL, and ReactQuery**, along with expertise in web frameworks such as **Express & React.js**.
- Gained valuable experience collaborating in a team environment, learning to deliver effectively while working within a group.
- Developed hands-on experience with communication and project management tools like **Git**.

PROJECT

Final Year Project
https://github.com/RADI-SE/Khareed-Ghar.git

- Designed and developed a **MERN**-based e-commerce platform with three actors: Buyer, Seller, and Admin.
- Built **APIs** for user authentication, product management, category management, and order handling.
- Implemented seller functionality to add, edit, and delete products, displayed dynamically on the frontend.
- Developed admin-specific dashboards for managing users, orders, and categories.
- Leveraged **MongoDB** for data storage, ensuring efficient queries and data integrity.
- Ensured secure application functionality with **JWT**-based authentication.
- Product Management and Auction Management System with AI powered Similar Product recommendation. (Gemini)
- Created a feature-rich admin dashboard for managing categories, products and user roles.
- Integrated search, pagination, and filtering functionalities to streamline workflows.
- Employed **Axios** for **API** integration and **Zustand** for state management.

EDUCATION

BS Software Engineering **Sep 2021 - June 2025**
CGPA: 2.6
Riphah Interntional university, Islamabad

ADDITIONAL SKILLS

- **Skills:** Project Management, Software Quality Assurance
- **Certifications:** Full Stack Devloper, Computer Networking (Coursera), Frontend Development (FreeCodeCamp)
